Declares If He Is Elected Mayor He Will Hire Hall and at Stated Intervals Account for All Actions.

TWO YEARS FOR WIFE DESERTER

Court Says Sentence Is Too Light and Refuses to Grant Probation Request.

LOS ANGELES, Oct. 29.—The maximum penalty for this offense is too light for you in this case," said the words Judge Willis to day sentenced Neil R. Berry to two years in Folsom for wife desertion, a statutorily imposed in this county under the new law regarding the rights of the people to answer their questions and to receive their advice. He spoke also of ballot box stuffing. He said he was prepared to meet "repeating at the coming election.

"Fifteen-six tiger cubs have been sent to the Ringling," he said, "and we expect to open a regular Hudson-Fulton park in the same place during the coming month. But we are going to kill the tiger this year—kill him, skin him and nail his hide to the wigwam."

"Mr. Barnard spoke of the police and personal liberty, a subject used principally by Guynor. The police department, he said, should be reasonably removed from politics and the enforcement of the law should be reasonable but not spasmodic."

WICKERSHAM SPEAKS.
Attorney General Wickersham, speaking in Mr. Barnard's behalf, added a bit of national flavor to the campaign.

"I am not here as a federal official or as a member of the President's cabinet," he said, "but as a citizen and taxpayer of New York."

"In this capacity I feel it my privilege and duty to add to this effort to put competent and honest men at the head of the affairs of the city."

"Prepared with the intense competition of their business, men are prone to leave city government to professional office seekers. Only when confronted with conditions, as in the present campaign, is the average New Yorker stirred from his absorption in private business to turn to city affairs. Appalling revelations of mismanagement of city affairs call urgently upon every citizen to redeem the city from its present reproach. Every consideration demands a concerted effort to defeat the Tammany gang."

"The mayor of New York is indeed one of the most potent executives of the world. To what kind of man then would a citizen of New York, concerned only with the selection of an honest, efficient administrator of this vast estate naturally turn? Surely not to a judge who was called upon the bench but has been characterized by political chicanery and demagogic appeals to popular favor; surely not to the promoter of a kind of newspaper distinguished for their unbridled license and their gross abuse of the liberty of the press."

"So, he naturally would turn, as those who framed the fusion ticket did turn for their candidate for the mayoralty, to a man of wide, successful business experience. Such a man they found in Otto T. Barnard."

Judge Guynor, in his address, took the defensive and leaned on his record. He denied that he had ever been on trial for violation of the整顿 house law, as had been charged by his detractors.

"As to the charge, that he had a monthly income of \$12,000 from tenement rents, the truth was," he said, "that he owned property assessed at \$100,000 for which, according to W. R. Hearst, he received \$100,000 mortgage on it."

Robert R. Moore, Democratic candidate for controller, brought suit for \$100,000 to W. R. Hearst because of an article printed this morning in the American, charging that Moore had been used as a dummy to obtain large loans for Charles H. Morris."

TAFT REGRETFUL OVER DEATH OF ITO

WASHINGTON, Oct. 29.—The following is the text of a message sent by President Taft to the Emperor of Japan expressing his sorrow at the death of Prince Ito:

"I extend to your majesty and to the Japanese people my profound sympathy in the great loss sustained by you in the death of Prince Ito. I enjoyed the honor of his friendship, and cannot too strongly condemn the wickedness of his murderers."

BRITISH CRUISER IS AT MONTEREY

MONTEREY, Cal., Oct. 29.—The British cruiser Bedford, which sailed from San Francisco today, arrived here at 4 p. m. to remain until Tuesday.

Tonight the officers of the cruiser attended a reception at the home of Charles F. Fox. Later the officers went to the Presidio where they were the guests of Colonel Melton and officers of the informal host.

Tomorrow Captain Mather will be taken around the seventeen mile drive and luncheon will be served on Pebble Beach.

Thousands of acres of timber, many

milling camps and small ranches were

NAVAL FIGHT OCCURS AT SALAMIS

Lieutenant Tibaldo is at Head of Rebels and Says He Will Win in Revolt.

ACTS ATTRIBUTED TO SHEER MADNESS

Government Is Anxious as to What Further Hostile Action Will Be Taken By Crews of Torpedo Boats.

ATHENS, Oct. 29.—After almost 2000 years when Themistocles gained a memorable victory over the Persians—Spartans was again the scene of an naval battle.

The fight lasted twenty minutes and was between field batteries and big warships on one side, and mutinous bands of naval officers, which quelled the capital Wednesday night with torpedo boats, on the other.

A sharp exchange of shells followed a short shot. Some projectiles struck the island, but only one shell hit a torpedo boat—the Sphendona, which immediately was enveloped in a cloud of smoke.

The torpedo boats gradually retired until they obtained shelter off the headland, when firing ceased. The rebel vessels returned the fire of the warships and field batteries, but apparently little damage was done on either side. The rebels were led by Lieutenant Tibaldo and were reported to have numbered 300 men.

Athens remained quiet tonight, but much suppressed excitement prevailed. An official statement was issued, stating that the arsenal, which was in the hands of the rebels, had been recaptured and that the mutinous torpedoes were prepared to surrender.

TIBALDO'S DISAPPOINTMENT.

Lieutenant Tibaldo appeared to have been actuated by his disapproval of the tactics of the Military League and the junior naval officers in consenting to negotiate a compromise of the ultimate recompence issued by the Military League for an ordinance suspending all promotions for five years and abolishing the posts of rear admiral, vice admirals and fifteen places of lesser rank.

Tibaldo took a prominent part in the military movement last August. He was the first officer to go to the camp at Goudi, outside of the city, after the premier's refusal to receive the tactics of the Military League and the junior naval officers in consenting to negotiate a compromise of the rebel cause.

A meeting of the Military League yesterday Tibaldo said:

"I let the last report and without it is would have failed. Now you abandon me but I will carry on a separate revolt single-handed."

The Military League's proclamation demanded Tibaldo, who was in command of a flotilla of torpedo boats and submarines and demanded the portfolio of minister of marine, ascribed his pretensions to madness and the influence of outsiders, and threatened to have him court-martialed for treason. The league met late night to discuss its attitude toward naval officers who took part in the fight. It is believed the league in its final judgment condemned the mutiny.

At a meeting of the Military League yesterday Tibaldo said:

"I let the last report and without it is would have failed. Now you abandon me but I will carry on a separate revolt single-handed."

The Military League's proclamation demanded Tibaldo, who was in command of a flotilla of torpedo boats and submarines and demanded the portfolio of minister of marine, ascribed his pretensions to madness and the influence of outsiders, and threatened to have him court-martialed for treason. The league met late night to discuss its attitude toward naval officers who took part in the fight. It is believed the league in its final judgment condemned the mutiny.

Therefore the other flotilla now moves to San Pedro.

"I am glad to get started on my term," said McMahon, as he started for prison. "They tell me Lansing is a pretty fair place to be in."

PRESIDENT TAFT GROWS POETIC

Likens Mississippi River to Woman Because It Is Pretty and Troublesome.

NATCHEZ, Miss., Oct. 29.—Like a woman is the Mississippi River, according to President Taft in an address at Natchez today. The President said:

"The Mississippi river in its power and its willingness to make eddies and trouble, in its beauty, for it has great beauty as we saw when we came down, reminds one—dare I say it?—of a beautiful and powerful woman."

"President directed, only by suggestion, she is the greatest aid to progress and happiness that we have in life. But treated without discretion, sought to be hemmed in, she will—by the force of her character—break out, and loses the opportunity for usefulness, and sometimes wrecks everything she strikes."

"And now that is the kind of a creature that the Waterways Association, the speaker of the House and his associates, a quorum, I may say, of the committee of the whole of the state of the Union, to study with a view to controlling so that we may make the most of her. And we are going to do it. Just how, neither the speaker nor I am inclined to confide in you at present."

Mr. Taft said he would discuss the subject in more detail at the New Orleans waterways convention. Speaker Cannon and Secretary Princeton followed with a few remarks.

The Presidential party then resumed the river voyage. New Orleans likely to be reached in schedule time tomorrow morning.

BARRILL TOLD OF COOK'S CLIMB

MIDWAY WELL WONDERFUL PRODUCER

Test Shows That Its Flow of Gas Is Sufficient to Supply City of San Francisco

STANDARD PEOPLE TO USE PRODUCT

Scheme to Pipe Gas Into Interior Towns and Even to Metropolis of the Coast Is Considered Feasible.

RICHARD CROKER IS IN NEW YORK

Denies He Is in Politics and Declares That He Is Out Only on a Pleasure Trip.

NEW YORK, Oct. 29.—For the first time since his retirement from the Tammany leadership several years ago Richard Croker is in New York City during the heat of a mayoralty campaign.

Mr. Croker is here from Europe, he insists, solely for the purpose of visiting actually with his old friends and spending the winter in the South.

True enough with talk on any other topic he was dumb on the subject of local politics, except to declare with more than his usual emphasis that he was out of that field for all time.

Mr. Croker said he was looking forward with pleasure to his coming visit to his place at Palm Beach, Fla., and next week would find him there.

"I am out of politics absolutely," Mr. Croker declared. "I know it is no use to expect the press to sit on the question and I must continue to deny any participation in public affairs. If I did not reply they would think I had something on my mind."

BAKERSFIELD, Oct. 29.—The great gas well brought in by the Standard Oil Company on section 26 in the Midway oil field, has been tested and found to produce 12,000,000 cubic feet of gas in twenty-four hours, enough to supply all San Francisco with gas. The well has now been plugged with clay brought from San Francisco at a considerable expense and the action of the Standard in testing the well and shutting off the flow indicates that the corporation is to utilize the gas, if being entirely feasible to pipe it to interior towns and even to the bay.

It has demonstrated that there is a great gas belt paralleling the Coast range on the west side of the valley. Five miles away from the Standard well and in a direct line is the Crandall well, which is also a gasser, and still twenty miles to the north the Peerless Company

some time ago brought in another big gas well, all of which proves the theory that the gas belt is an extensive one.

AIR INCREASING SUPPLY OF WATER

Attempt to Develop McGurg Well Results Only in Complete Failure.

BAKERSFIELD, Oct. 29.—The Oregon Midway Oil Company, which has undertaken to supply the west side oil fields with water, has adopted the air compressor method of pumping and as a result has increased the production of its wells many fold, giving an assurance of an abundance of water for the entire field. A six-inch main is now to be laid from the wells through the county and late tonight successfully assisted arrest.

South Crawford got warrants for the arrest of County Clerk Hurst and another man, organized a posse and went after the ballots. He returned early, having seized the house in which they were held, saying that when they were held, they were covered with sixty guns in the hands of raiders. Then the sheriff and his men went to return to Jackson.

Later A. H. Hurst was arrested on a warrant charging him with having fraudulently removed or permitted others to remove the ballots. He was released on \$2,500 bail.

The present county officials were elected four years ago when the ticket of incumbents, headed by the late Judge James Hargis, was swept out of office.

"Nothing well located on Buena Vista lake and from which it was hoped to develop a water supply for Mariposa, has proved to be a failure, the water, though abundant, being unfit for domestic use because of the gypsum it contains.

STRIKERS ATTACK UNION STATION

SHOT IS CAUSE OF SENSATIONAL RUMOR

CLEVELAND, Oct. 29.—A rumor that an attempt had been made to assassinate Mayor Tom L. Johnson today created a sensation for a time.

The report was based upon the fact that Joseph F. Clayton, an Australian, who was present at the time of the shooting, was seen to be in the vicinity of the station.

No casualties have been reported. The garrison has been ordered to quell the disturbance.

After rounding up the two culprits, General Ashton said he had them in custody.

"When they were in my office," said General Ashton, "I put them through a course of严刑 as rigorous as any cross-examination I have ever witnessed."

"I wanted the exact truth and the affidavits that have been published are the result of these rigorous hours in my private office. As for Barrill, he may be nothing but a mountain guide, but he is a type of our hardy miners. Western men who will fight rather than lie."

"Barrill says any one can go up on the mountain with him, take a photograph of him as Cook did at the same place and that such a party will get the self-same result. Cook got that it will be apparent the place is about twenty miles in an air line from the summit."

General Ashton has been here for several days in connection with a suit.

He was brigadier general in command of the National Guard of Washington during the Chinese riots in the early days of that state.

HEAR ARGUMENTS ON RAILWAY RATES

SALT LAKE, Oct. 29.—Arguments were heard today by the Interstate Commerce Commission in the case of the Salt Lake Commercial Club suit against the several railroads

concerning the traffic rates in the city.

At the hearing, General Ashton, a prominent lawyer of Tacoma, Wash., who recently ex-

amined Barrill and Printz, who was one of Dr. Cook's guides, testified that Dr. Cook never came within fourteen miles of reaching the summit of Mount McKinley.

The deposition of Barrill and others was taken at the request of General Thomas H. Hubbard of the Peary Arctic Club.

The other guide examined by General Ashton was Fred Printz, whose testimony as far as he could get it, was that he will be apparent the place is about twenty miles in an air line from the summit."

General Ashton has been here for several days in connection with a suit.

He was brigadier general in command of the National Guard of Washington during the Chinese riots in the early days of that state.

COMMITTS SUICIDE IN COUNTY JAIL

NEVADA CITY, Cal., Oct. 29.—George A. Bailey was found dead to-day in the city jail with a bullet through his brain. He had been drinking for several days and was locked up Thursday night to give him a chance to sober up. Bailey had concealed a revolver in his clothes better than the night watchman of a local bank.

EXPLORER COOK WELL RECEIVED

To Visit Montana Capital
Today and Give Another
of Lectures About North.

MISSOULA. Mont., Oct. 29.—In striking contrast to the meeting last night Dr. Frederick A. Cook's lecture on his Polar trip in this night was marked by no demonstration, save a most cordial greeting to the explorer when he appeared upon the stage, and applause at intervals throughout his lecture.

The theater was packed to the galleries with people and the doctor was given the most respectful and profound attention while he was speaking and at the close of his address was greeted with rounds of applause.

Dr. C. A. Dunaway, president of the University of Montana, introduced Dr. Cook as a man with an interesting message to deliver regarding a great achievement and referred to the controversy which threw the Hamilton meeting into such an uproar as something having no place in a university lecture course.

Dr. Cook prefaced his address with the statement that he had said at Hamilton all that he had to say regarding the controversy and that his statement was the same as set forth in the written account which he furnished the Associated Press. Passing the controversy with these few remarks, the doctor plunged into his lecture, which was illustrated with stereopticon views showing scenes in the frozen north.

Before the lecture Dr. Cook received a delegation of business men from Helena at his hotel and accepted an invitation to visit the capital city of Montana tomorrow and to deliver a lecture there tomorrow night. The committee, composed of Prof. D. J. Condon, superintendent of the Helena schools and secretary of the Helena Civic Club; Captain James U. Sanders; George R. Miller and Gen. E. D. Weed, extended its invitation to Dr. Cook in behalf of the citizens of Helena and urged him to be the guest of the people of that city and see that the spirit of the meeting at Hamilton was not

the spirit of the people of Helena and of Montana at large. Dr. Cook consented to accept the invitation and will leave Missoula tomorrow morning. From Helena he will go East to prepare his records for the University at Copenhagen.

WOMAN FAILURE IN PROFESSIONS

Judge Speaks Too Frankly and Then Almost Comes to Grief as a Consequence.

CHICAGO. Oct. 29.—You can't be theologians, because you haven't the power of analysis; you can't be lawyers, because you are devoid of the reasoning faculty; you are not successful scientists because you can consider only one detail at a time; you are only occasionally successful in business and you succeed only in those branches of medicine which call for the exercise of the nursing instinct," said the women of the Order of the Highland Park Club, all these things last night in an address at the first meeting of the club this season in the club house of the women's auxiliary of the Highland Park Club.

But he incurred the vengeance that might otherwise have been wrought upon him by telling the women a lot of things they can do and which they must do if this old world is to roll along unchanged in the course mapped out for it.

"But," he said, "I wish to present an analysis of woman's work from my point of view. The only woman lawyer I know who is in success in her profession began her career by being put in jail for contempt of court for throwing pitcher of water at a judge who overruled her motion. In law, theory and medicine she rarely succeeds; she can't be a scientist because that involves a multitude of details, and while woman is essentially a creature of detail, she can consider only one detail at a time and not many in their relation to one another. The feminine mind is the complement of the masculine mind. With but one of them in existence the world would soon become a dreary place of existence and in a few generations its population would disappear."

INVITE CRANE TO ATTEND BANQUET

Chicago Men of Affairs to Protest Against the Methods Used in Recall.

CHICAGO, Oct. 29.—An invitation signed by fifty Chicagoans, who stand at the head of the city's commercial, professional and social endeavors, was sent today to Charles R. Crane, whose resignation as minister designate to China recently caused a sensation. Mr. Crane, who at present is in New York, is asked to be the guest of honor at a dinner to be given at his convenience.

The invitation goes into details of the recall of the former minister designate upholding his attitude in every respect. Among the names attached are the following: C. L. Hutchinson, David R. Forgan, Charles G. Dawes, George E. Roberts, George R. Pack, D. H. Burnham, P. H. Kohlmaat, Harry Pratt Judson, James B. Forgan, B. M. Felton, A. J. Earling and Victor F. Lawson.

The invitation says:

"On behalf of a large number of your fellow citizens, we invite you to be our guest at a public dinner to be given in your honor on such a day as will suit your convenience."

"We desire in this public manner to express our appreciation of your character and distinguished public services. We regard you not the least of these services your vigorous advocacy of the protection and political interests in the Orient, in full accord with the well known views of President Taft and with his epoch-making speech at Shanghai in 1907.

"When the president appointed you minister to China—an honor unsought and expected by yourself—you accepted the post of personal sacrifice and your friends cordially approved the president's choice. Your intimate knowledge of China and its people, the wide scope of your experience in business matters throughout the world and your extensive personal friendship with many who hold responsible positions in foreign affairs, contributed to your fitness for the position."

"Your unusual discretion, prudence, wisdom and modesty had been demonstrated to us by an acquaintance extending over 25 years of an active business and social life. So far no conduct of your own has diminished our confidence in your fitness.

"We believed the published circumstances, trivial in themselves, were unfriendly made use of in an attempt to humiliate you without adequate cause and we wish by this means publicly to protest against such methods which cannot fail to have a tendency to discourage prominent private citizens from accepting public office."

WOMEN HOLD FIRST POLITICAL GATHERING

150 Policemen With Clubs Ready for Use to Prevent Trouble Among Those Present.

NEW YORK, Oct. 29.—One thousand delegates completely filled the floor of Carnegie hall tonight at the first women's political convention ever held in New York.

Mrs. Clarence Mackay presented the platform which was adopted. Peaceful order was the purpose of the convention there stated in adjoining cloak rooms 150 policemen with night sticks in their belts. They were not needed.

The convention demanded:

Amendments to state and national constitutions permitting women to vote; amendments to the city charter requiring one-third of the board of education of women; compensation for all civil service employees, including teachers, by position and not by sex; and an amendment to the state civil service law prohibiting the exclusion of any citizen from any examination by reason of sex.

EXPLOSION KILLS MANY WORKMEN

LONDON, Oct. 29.—As the result of an explosion in the Rhymey iron company's colliery at Glamorganshire, Wales, today, twenty-five miners are believed to have lost their lives. Assistant Manager and another employee were killed in an attempt to rescue the exploded men, while Dr. H. Turner, who had descended with them, had a narrow escape. He was rescued unconscious five hours afterward.

SCHOONERS ASHORE. ST. JOHN, N. B., Oct. 29.—A schooner from Quince late tonight, says two schooners, one a large vessel, went ashore at that place during a heavy gale tonight. The schooners are in a dangerous position. The government steamer Landtoween left for the scene of the wreck.

WIFE ASKS FOR "CUPID'S TOLL"

Husband Placed Deposit of \$500 as a Guarantee of Complete Domestic Bliss.

CHICAGO, Oct. 29.—The collection of "cupid's toll" in addition to a divorce was asked by Mrs. Bessie Demers in the circuit court here today. "Cupid's toll" is a deposit of \$500 made by her husband, Jacob Demers, as a guarantee that he would keep domestic tranquility in their home. Mrs. Demers declared her husband treated her cruelly and failed to provide for her and that she is entitled to a divorce plus "cupid's toll."

Mrs. Demers told the court she had been married but two days when her husband abused and mistreated her to such an extent that she was about to leave him when friends intervened. Thereupon her husband made the following agreement if she would remain:

"We agree that the employing of girls as models has a demoralizing effect upon the girls themselves, and upon the employers and purchasers," said Mrs. J. Burden Hardman, chairman of the committee, "and for that reason we decided to recommend that the Civic Federation make an issue of the matter."

Other well-known members of the Welfare committee are Mrs. Marcus M. Marks, Mrs. Eugene S. Pendleton, Mrs. Emanuel W. Ellement, Mrs. Robert Watchorn, Mrs. Clement A. Griscom Jr., and Mrs. C. U. Carpenter.

OAKLAND MAIDEN HEROINE AT SEA

Is Nurse, Cook and All That's Good on Stormy Trip Around Cape Horn.

NEW YORK, Oct. 27.—Miss Augusta V. Park, an attractive young woman of Oakland, Cal., is the heroine of a storm-tossed voyage which her father's big American sailing ship the Acme has just completed. It required 128 days for the Acme to round the Horn from San Francisco to this port and during that time the vessel experienced many adversities.

If you have any, even one, of the symptoms of kidney disease, cure yourself now, before diabetes, dropsy or Bright's Disease sets in. Read this Fresno testimony:

Milton Edwards, 62, Mong street, Fresno, Calif., says, "I suffered a great deal from kidney trouble, and I had severe pains through the small of my back which were particularly noticeable when I stooped. Doan's Kidney Pill finally came to my notice, and I purchased a supply at Baker & Colson's drug store. They dispensed the backache, restored the kidney secretions to their normal condition, and built up my condition so that I was able to do my work with ease. I can only speak in the highest terms of Doan's Kidney Pill."

Business Is Found to Be Demoralizing
By Committee of Women in New York.

NEW YORK—If the Industrial Employees' Welfare committee of the Civic Federation has its way, cloak models in garment factories and cloak rooms will have to seek other means of livelihood. The committee, which is composed of prominent women representing various sections of the country, has decided that the employment of girls as models is demoralizing to the girls, the employers and the customers. As a result of personal investigation made by the members of the committee in many factories and garment show rooms the Civic Federation will undertake to discontinue the practice and substitute

"We find that the employing of girls as models has a demoralizing effect upon the girls themselves, and upon the employers and purchasers," said Mrs. J. Burden Hardman, chairman of the committee, "and for that reason we decided to recommend that the Civic Federation make an issue of the matter."

Other well-known members of the Welfare committee are Mrs. Marcus M. Marks, Mrs. Eugene S. Pendleton, Mrs. Emanuel W. Ellement, Mrs. Robert Watchorn, Mrs. Clement A. Griscom Jr., and Mrs. C. U. Carpenter.

ADDITIONAL SPORTS

JEFF DISCOVERS NEW HEAVYWEIGHT

NEW YORK, Oct. 28.—While actively training here James J. Jeffries has uncovered a likely candidate to wrest the heavyweight championship title from the socially cited Anthony "Dynamite" Mulligan of Philadelphia, who was first anticipated to tame by "Philadelphian Jack" O'Brien. The new candidate is Warren Harbour, son of Edward Harbour, the thread manufacturer, and socially prominent.

Harbour, who says he has challenged Harlan for a finish fight before a select audience of their friends, happened into the gymnasium here while Jeffries was training and the professional pugilist induced the amateur to box and wrestle with him.

Harbour, who is six feet three and a half inches, made such a creditable showing that Jeffries declared that with competitive training he could win the professional championship of the world.

PECULIAR PLAY IN THE CHICAGO SERIES

One of the most peculiar plays of the season marked the single run scored by the Chicago Cubs in their opening series with the White Sox. Jeffries is usually mixed in all the brilliant and spectacular plays of the Cub—was passed and stole second. Sheppard walked and Sciadone sacrificed. Chance hit a fine drive to right field, and Attell fisted for it. Even though he couldn't make the catch, the ball was a quick pick-up. After hitting the base until he saw Attell couldn't make the catch, then raced for the plate. Attell's pick-up was a gorgeous one, and his throw perfect, the combination being too much for Johnny. He was tagged but here again the peculiar part, right after he had come to the plate, and before Sciadone could shift from Johnny to Jimmy the latter had slid safely into the plate.

AMATEUR BASEBALL

SELMA, Oct. 29.—The Selma ball team added another victory to its last Sunday by taking the Fresno shirts into camp by the score of 4-2. A couple of errors let in the two runs for Fresno.

McHenry pitched his usual steady game, putting the brunt on when his team ran. He has sixteen strikeouts. Bowland, a new man on the team, caught an excellent game behind the plate and grubbed two hits. Green on second and Wisconsin in right started, both in their positions and at the bat, while the rest of the team played a bang-up game.

Next Sunday, Selma comes here to seek revenge for their defeat by Selma three weeks ago in a twelve-inning struggle by a 3-2 score. In Sanger only two hits were made off McHenry and three off Johnson, so we feel safe in anticipating the fans a first-class article of baseball.

The article of ball that Selma is putting up deserves better support, and we trust the baseball fans will come to a bunch and boost the team along for we are in the field to stay.

CLIFFORD FARRIS,
611 Q street, Kern City, Cal.

Line-up of the Kern National:

Farris, c.; Mills, 1b.; W. Custer, 2b.

Michel, 3b.; Poets, ss.; Dan Bittfeld, lf.

Bin, r.; Newell, rt.; Brown, cf.; E.

Cameo, and; Meijer, p.; Galli and

Saphire, substitutes.

Tomorrow afternoon the Bittfelds will tackle the fast Estero team at the lathe place. The Estero team has defeated some of the best amateurs in the valley lately but Manager Bopp of the Bittfelds is confident that the boys will come home with the big end of the score.

The Bittfelds have strengthened their pitching staff by adding H. P. Bin, who is a veteran of the diamond. Two seasons ago Bin was with the McAfee team, winning the majority of his games. Following the line-up the local boys will present Henry, c.; Bittfeld, 1b.; Schmid, 2b.; Ester, ss.; Foss, lf.; Bittfeld, rt.; J. Miller, rf.; Schert, utility. Manager Bopp would like to acquire a game with the Maricopa team for Selma for next Sunday or any other date. These teams each by a victory to their credit when the Bittfelds played under the name of Red Sox, so the boys would like to have revenge. The Bittfelds also extend a challenge to any amateur team in this city. Games may be arranged by addressing

ALEX. RODI,
Manager Bittfeld's, care Bittfeld's Store.

FOOTBALL HUSKIES ISSUE CHALLENGE

FOSTER, Calif., Oct. 29.—The Fowler football team has reorganized for the season of 1909-10, and having a few open dates would like to hear from any of the teams in the surrounding cities.

Our average is 160 pounds.

Please address all communications to R. W. Stewart, manager, Fowler, Cal., box 227.

FRESNANS KILL 3 BEAR AND 2 DEER

George Knight, proprietor of the Layton meat market, and Sam Hinze, the local grocer, returned from Fresno Valley at an early hour yesterday evening after a two weeks' hunt for big game in the mountains. That the pull of Fresnans "got 'em" with the rifle is evidenced from the game brought back by them. Three bear and two deer were slain in last evening.

The wild cat will be cleaned by the butcher.

DESPONDENT MAN SHOOTS HIMSELF

Attempts to Force His Wife Into Swallowing Poison and Taking

Lite.

LOS ANGELES, Oct. 29.—Unable to find employment in less than a week, Leon Lewis, aged 32, shot himself through the head in the presence of his wife and son. He died instantly.

The wife, maddened, hysterical by the thought of her husband's death, first made good on the contents of a gunce bottle of carbolic acid, and again asserted that she had snatched the bottle of poison from her husband's hand only to find him in possession of a revolver with which he had killed himself before she could run out of the room.

George Lewis, 32, of 1010 S. Main street, Denver, about a week ago.

He had tried to force her to swallow the

contents of a four ounce bottle of carbolic acid, and again asserted that she had snatched the bottle of poison from her husband's hand only to find him in possession of a revolver with which he had killed himself before she could run out of the room.

The wife and her son came from Denver

about a week ago.

RAISINS HAVE VALUE

This year's raisin experience shows that the people of the United States will eat raisins and pay the price asked for them by the retailer, from 12 to 15 cents a pound. The country took this year the large carry-over, and of this year's crop of 60,000 tons a large part has already been consumed and all of it will be before the new crop comes in. Call raisins a luxury or what not, the people eat them and that is the important thing. The demand exists. It is well to stimulate it by advertising, but all it needs is stimulating; it does not have to be created, as does a demand for something that is only a trade name.

The trouble is at this end, at home. The fact that the consumer pays practically as much as ever for raisins does not help the producer, and the fact that the packers offer raisins at a ruinously low price does not help the consumer.

Also, paradoxically enough, it does not increase the demands of the trade. Much of the difficulty is directly traceable to the packers. Their game is a gamble. Their methods, which never improve, have nearly ruined a great industry. Raisins have not stable value with them. Today they are beginning at 1½ cents; tomorrow there is a scramble for them at 2½ cents or even higher. Then there is likely to be a sudden drop. The jobbers are chary of stocking up. No stability is maintained and never will be under present conditions.

This has been shown, however, that raisins have an intrinsic value, and are not mere chips in a game, and that no combination of packers can permanently make them valueless. The chances are that the unoid raisins of this year's crop will bring a good price, and the boards will be cleared for next year. It will be the first year in the last three that there will not be a heavy hold-over to enter into competition with the new crop.

By next year it is to be hoped that there will be an organization to give stability to the market. If there is not, there ought to be a public sentiment that will compel the packers to market the crop as a food product to be put into the hands of the people, and not as stakes to be played in a huge gambling game.

GREECE RIOTS

The outbreak in Athens appears to be an instance of democracy gone mad. Greece has been nominally a kingdom ever since its separation from Turkey, but actually the government has been remarkably responsive to public sentiment. The king has spent his time either dancing attendance upon the wishes of one set of ministers or another, or else sulkily letting them do as they please. The ministers have continually kept their ears to the ground to know what the mob in the forum has wanted.

The natural consequences of a lack of firm government have been felt. "The voice of a right people in the voice of God," with the emphasis upon the "right." The voices of a divided democracy, jangling against each other, only bring the principles of popular government into contempt. So now we have the spectacle at Athens of a "military league" dictating to the government and of a member of that league disagreeing and starting a revolution on his own account. There is no spirit of co-operation, no spirit of abandoning personal opinions to the good of the state; none of that capacity for compromise which must be the basis of getting along together in the everyday affairs of government as well as of private life.

There are times in the lives of nations when a firm stand must be made for principle, and these are the occasions for revolution or for the stern putting down of rebellion. But it is a waste of divine principle to go to war over trifles.

The people of Greece are not improving their advantages of self-government. They need a spanking.

PROBATION

Whatever may be the immediate success of the methods of probation and parole, now so widely adopted in this country, there is no doubt that they must be continued, probably revised and improved, as the only effective method of dealing with the criminal classes. Reports from all directions, with but few exceptions indicate that officials are finding that probation of criminals leads to good results.

The ideal method of dealing with crime would be to prevent the cause of crime altogether. But though scientists may discuss eugenics, we will probably continue to have born into the world persons who under ordinary temptations will go wrong. Conditions of humanity will never permit the killing off of criminals. The mode we are now discarding of throwing a man convicted of crime into prison for a few years and then turning him loose a worse criminal than ever, has proved as useless as it was illogical.

Giving a man a chance to start again and start right, with the eye of the community upon him, not in anger, but with hope for better future, must be tried in every possible form before being given up.

MORE WEALTH

The richness of California in natural products seems to grow beyond belief, faster than the ability of her people to make use of them. Originally her climate and abundance of water

for irrigation were sufficient to have made this a garden of the world. Then came the discovery of gold, and the opportunity for developing her forests. Later came the disposal of copper and oil. Petroleum has been the surprise of the last decade of the state's growth and now comes the discovery of natural gas in quantities sufficient for manufacturing purposes. It has been a continuous revelation of the co-operation of nature with men's industry to build up a great commonwealth.

We can but trust to the man of this generation and of the future to use this wealth in a way for the good of the entire people—giving those who discover and develop this wealth their proper reward, but not permitting its perverseness to the disadvantage of the less fortunate of the people.

FLYING SIMPLE
SAYS PROFESSOR

Finds It Easy to Talk of
Doing Away With Motors
in Handling of Aeroplanes

NEW BRUNSWICK, N. J., Oct. 27.—At a meeting of the New Jersey Aero-club, Professor Julius Nelson, physiologist, in a lecture on aerial navigation, propounded that within a few years anyone would be able to ascend and descend in the air without the aid of aeroplanes or similar machines, but by the use of what he termed a sky-cycle.

"Why not manufacture wings something on the order of those of birds, and have them controlled by the leg muscles of the human being?" said Professor Nelson. "Scientists have been giving this much thought, and I prophecy that within a short time people will be able to get into the air any time they want to. Just take the wings out of your pocket and ascend. When you come down, fold them up and put them in your pocket."

PREPARING ALASKA
COAL LAND CASES

So-Called "Cunningham" Hearings Are
to Take Place in the City of
Seattle.

SEATTLE, Wash., Oct. 29.—Preparations are being made for the hearing of the so-called Cunningham coal land case, involving the validity of filings in the Katsila district, Alaska, which is to be held here before Special Commissioner William J. McGee in the near future. The attorneys for both sides are now in Seattle but the date for the hearing has not been set, as there are certain stipulations which the attorneys wish to make before the taking of testimony begins. One of these stipulations now under consideration provides for the elimination of the local land office at Anchorage in the hearing in order to make it more convenient for the parties involved.

"There has been some disposition to make it appear that there is a mystery in the methods of the Government representatives in the conduct of the case, but there is none," said James W. Sheridan, the Government's attorney in the case, in discussing the proposed hearing today. "There is a vast difference between professional discretion and mystery. The Government does not conduct investigations with display. At the proper time the proceedings and the decision will be made known to the public."

DIVORCEES HAVE
CLUB IN DENVER

Each Member Must Be in Receipt of
\$100 a Month Alimony from an
Ex-Husband.

DENVER, Colo., Oct. 29.—Dissatisfaction over the decision of the judges on the debate concerning the question whether a woman is a citizen on the day she is married, or the day she is divorced, caused a whirlwind among certain members of a club, said to be devoted exclusively to divorced women, that has violated the rule of secrecy imposed on members, and talked to outsiders, thereby permitting it to become generally known that such a club really existed. It is said that plans are afoot to nationalize the organization.

The organizer of the club is said to be a prominent Denver divorcee. Thirty members are enrolled and a constitution and bylaws have been adopted and officers chosen. One of the qualifications for membership, it is said, is that applicants must be regular recipients of \$100 monthly alimony. Attacks upon the character of an applicant, when chosen to be untrue, form a basic membership.

Weekly luncheons are held at which discussions concerning the marriage and divorce are engaged in, and it was at the meeting Sunday last that the debate occurred which resulted in a division of sentiment and may result in breaking up the organization.

POWDER BURNS
PHOTOGRAPHER

ANN ARBOR, Mich., Oct. 29.—A. B. Lynden, a local photographer, was badly burned by the explosion of flashlight power last night that it is thought his eyesight is destroyed. When the accident happened Lynden was photographing the Order of Sphinx, a verity society, after an initiation meeting. The flashlight failed to burn, but exploded when the victim began examining it.

Lynden, well known to thousands of University of Michigan students, having been a familiar figure with his camera on the athletic field and at all student events where photographs were taken.

Crossing the Channel on a Plank. A day or two after Blériot's successful flight across the channel, a man named Westlake announced his intention of crossing on a plank two feet wide, eighteen feet long, and two inches thick, fitted with a metal gall and two empty oil drums to give it buoyancy. Westlake, however, was picked up more dead than alive off the Belgian coast, but still hopes to accomplish thefeat.

A few days later Thomas Wakeman set out to row across the channel in a boat of his own construction, consisting of two planks, with sides a few inches high. He was ultimately picked up in the North Sea and landed at Rotterdam.

Some two or three years ago four old Estonians attempted to row from Dover to Calais in a four-oar sculling boat, but before they got half way across the channel the boat was swamped and the crew nearly drowned. That is not impossible, however, to cross the channel in a small boat, as was proved some time back by a young Frenchman named Paul Lachnits, who alone and unarmed, crossed from Dover to Calais in a canoe in twenty-seven hours, and seven little the worse for his adventurous voyage.—Tilt-Bits.

BRIEF EDITORIAL
FANCIES SELECTEDPopular
Will Obeyed

The city of Fresno will be dry after December 1st. That was decided at a recent meeting of the city trustees when by a vote of two to one and one member not voting, it was decided to adopt the revised ordinance proposed by the sale of liquor in the saloons of that city, the ordinance to be in effect on and after December 1st. It will be remembered that the people of Fresno voted "dry" some months ago but the courts declared the election illegal. The trustees have finally acted like men and have done the will of the people regardless of election technicalities.—Tulare Advance.

Refined
Cruelty

J. M. Barrie, the novelist and playwright, is either a "real nice man" or is guilty of the most refined cruelty. It is said that before entering a suit for divorce he insisted that the respondent in the case should submit the decree becoming final, marry the former Mrs. Barrie, and if Mrs. Barrie herself, it is said, made a handsome settlement upon his wife to insure the alliance. Now is certainly an original matrimonial situation, and it may be left to someone whether Barrie intended to heap coals of fire upon the head of the man who despised him of his wife or keep him in hot water.—Oakland Enquirer.

No Depot Yet
at Maricopa

Maricopa with a monthly freight business of \$200,000 is still without a depot. Perhaps there is no similar condition in the United States. Here is the center of a great field. There are thousands of people living tributary to the town. A hundred companies make it their trading center. Merchants are doing a big business. All ship their goods in by the railway, and they cannot be enigmatised to Maricopa because there is no depot.

There is an extensive passenger traffic also, but no man can buy a ticket at Maricopa, because there is no ticket office. If he boards the train, he can ride down to Sunset for the sum of 15 cents and there purchase a ticket for Bakersfield. The people of the west side town have tried in vain to induce the company to give them depot facilities. The Board of Trade there has petitioned, and the matter has been taken up by the county Board of Trade, but the result is nil. It is a disgraceful condition of affairs, and one that ought to be remedied by the railroad.—Bakersfield Californian.

Love and
Bean Soup

Having married a thrifty gentleman 65 years of age, an 18-year old girl in Brooklyn is now as happy as 18-year-old girls who marry thrify gentlemen 65 years of age may reasonably count on being. Wedded for two weeks, she has had bean soup for her daily fare, the richness of that diet being tempered only with casual bread. The enamored old gentleman gives bride nothing else. When Fortune tilted her cornucopia here she spilled all its contents over her youthful favorite.

How refreshing it is to turn from the duplicities of politics, the scandals of the courts, the rough asperties of life, to this charming little picture of earthly wedded bliss and bean soup.

We hear again the piping of the Arcadian shepherd making soft music in the vibrant air and seem to see Phyllis come wearing the daffodils of spring. The purple hills take on a softer glow, the sky grows radiant—love dances on the gentle breeze and the worn earth drops as a garment the obscuring veil of twice ten thousand years.

The world is young again. What a magis is there in the sight of love's young dream fed endlessly on soup.

Better indeed to be an old man's darling than young man's slave.

Los Angeles Express.

DEMENTED ACTOR
JUMPS INTO FIRE

NEW YORK, Oct. 29.—Believing he was possessed by a devil and in an effort to drive the demon out, Daniel Edwin Hurley, who said he was an actor from Providence, R. I., built a roaring bonfire in the middle of Fifteenth street before daylight, and dashed himself into the flames.

He fought several persons who tried to rescue him and while one man fired several shots from a revolver to attract the police, some one turned in a fire alarm.

The whole attracted six officers, and when arrived, and while the policemen were fighting the crazed man, a crowd gathered which completely blocked the street.

When Hurley was dragged from the fire, nearly all of his clothing had been consumed and he had sustained burns from which it was said he would not recover.

The police charged that he probably would be buried.

The crowd became so great that the police reserves were called out to make way for the ambulance.

Gloomy Outlook for Thanksgiving.

Thanksgiving is less than two months away, and it is reported that the crops are still rotting on the highest peaks throughout the country, which is a blow to the Inter-association that chokes turkeys are scarce and high.

The newspaper reports are accurate,

the flight of Count de Lambert over

Elfin Tower is the most daring and

spectacular aeronautical feat ever ac-

complished. With my brother is re-

ported to have flown higher, his flight

was of a different character. I have

had no private account of the ascen-

sion. It was not only wonderful, but

foolhardy. I am opposed to such ex-

hibitions, which tend not only to en-

danger the life of the aviator, but of

others."

TO RIP COUNTRY
OF BLACK HAND

NEW YORK, Oct. 29.—With the idea of ridding this country of the various black hand organizations which have been levying blackmail for years, Commissioner of Immigration Williams will soon order hearings in the case of 150 Italians suspected of being members of the black hand, looking to their deportation.

The trial, which is to begin in a few days, will be conducted by a panel of five.

WEATHER CONDITIONS

SAN FRANCISCO, Oct. 29.—The following maximum and minimum temperatures are reported from Eastern stations for yesterday as day: Chicago 40.38; New York 48.26; Omaha 26.46; Forest Hill, Sonoma valley, unreported weather with occasional showers; San Jose, light west wind.

GENERAL CONDITIONS

The area of high pressure east of the Mississippi river is continuing its slow movement toward the Atlantic coast, and increasing in strength as it progresses. Generally fair weather prevails in the region covered by it, though there has been slight precipitation on its eastern edge.

The easterly movement of the Pacific coast storm has resulted in more settled conditions in California; the rain to Thursday having quickly given place to fair weather. Precipitation has continued generally, though not in heavy amounts, in Central and Northern California, Oregon, Washington, Western Montana, and Idaho.

Fair weather is probable in Fresno and vicinity tonight and Saturday, though with light rain Saturday morning in exposed places.

W. D. FULLER, Local Forecaster.

AGENTS FOR

Social and Club News

The bustling little town of Sanger was all of a flutter last night over the "Barn Dance" that the ladies of the Episcopal church gave in the open house. It was a real harvest festival, the guests coming in country dress and entering with joyous hearts into the revelry of the harvest home. Big golden pumpkins, fashioned into jack-o'-lanterns grinned from among the tall shocks of corn that formed the chief decoration of the hall.

When this energetic group of women set their heads to accomplish results they stop at nothing and do no work too hard for their beloved cause. The fiddlers of the old country festival type were on hand and gave some lively jig music for the dance. Of course, the program contained all the old fashioned Dan Tucker and reels and the dancers entered merrily into the spirit of the occasion.

Between dances the guests were tempted to try their fortunes in the gypsy tent and tempt fate at the witches' caldron. Old fashioned good things refreshed the revellers during intermissions. It goes without saying that the festival was an unqualified success and that the guild is enriched by a good many dollars thanks to the tireless efforts of our enthusiastic women. A number of Freshmen mortified over for the event.

LYON ROBBERY IS DONE BY TWO MEN

Goods Are Pawned on October 22nd.

Burglary Occurs Several Days Earlier; Discovered By Man in House.

According to the police, the robbery of the residence of W. Parker Lyon at 1706 J street occurred about the 17th of October. Although a large quantity of silverware was taken, it was not as large as was at first reported. It is believed that all the silverware taken was pawned at the Capitol Jewelry House, on Mariposa street.

The goods were pawned at the Capitol on the 22nd of this month, two men bringing them in a suit case. The proprietor of the Capitol and a clerk have an excellent description of the men and it is believed that they will be apprehended.

The burglary was discovered by a young man who has been sleeping in the Lyon's residence at odd intervals for the past two or three weeks. When he reported the matter to the police, although the burglary was several days old, he instructed Chief Shaw to take him to the Capitol to show that he was not the man who sold the silverware, his object being to clear himself of any suspicion.

It is probable that the trick was turned by two men, for the two came in to sell the articles. In the first case, in which the goods were brought were two sugar bowls and about a hundred knives, forks and spoons.

Let L. Gray occupied the residence for a few days before the burglary, having just moved out when it occurred.

WILLINGHAM BOY AGAIN IN COURT

Accused of the Theft of Two Bicycles from the Franklin School

After several months of rest, Elijah Willingham, the 14-year-old boy who has caused so much trouble to the police department and who for a time was sent to the parental school, was arrested yesterday by Truant Officer Stanford at the Franklin school and charged with petit larceny.

The lad is accused of the theft of two bicycles from the school. He was taken before C. L. McLane, who committed him to the parental school. The boy was arrested last summer on suspicion of being the cause of numerous barn fires, but was allowed to go with a severe reprimand from Judge Graham.

LATON RESIDENT CALLED BY DEATH

After an illness of several months duration as the result of a paralytic stroke, Leland Nestor, for many years a resident of Laton, passed away at the county hospital yesterday morning, aged 64 years. The deceased was a native of Missouri. He leaves nine nieces, a daughter, Mrs. George L. Miller, residing at 458 J street in Laton. Arrangements for the funeral have not yet been made.

LOSES SHOES AND HAT DURING FALL

MINNEAPOLIS, Minn., Oct. 29.—Hattress and his stocking feet Fred Avery, Chicago traveling man, rushed breathlessly into a local hotel yesterday. "Give me a room quickly," he commanded, "and send up a bell boy." Avery nearly missed his train at Sankt Peter. As it whizzed by he threw his suitcase on the platform and jumped on board. In doing so he missed his hold on the handrail and struck violence that both of his low shoes and his hat fell off. Avery held on however, and arrived here shoeless and hattless.

CARD OF THANKS.

We wish to thank our neighbors and friends for their kindness to us in the loss of our little son Harry.

* C. D. EDGERLY AND WIFE.

2,000 pounds American Block Coal is equal to two cords of oak wood at \$7.00 per cord. Burns in any stove. Call Main 289, and let them tell you about IL Fresno Fuel Company.

JOCKEY DAN MAHER HONORED BY KING

NEWMARKET, Oct. 29.—King Edward presented Dan Maher, the American Jockey, with beautiful jewel-encrusted pearl pin today in recognition of the jockey's success in winning the Free Handicap stakes yesterday with His Majesty's Minor.

The Criterion Nursery handicap of seven furlongs was won by Miss Elizabeth.

The Durham stakes handicap of 1,000 sovereigns for 3-year-olds and upward, was won by Louis Winstanley's Don, Faithful Don, second; Bonny Bay third.

The Free handicap of 100 sovereigns each for 2-year-olds, six furlongs, was won by Sunlight; W. Astor's Winkie second; Apache third.

Queenberry handicap of 500 sovereigns for 3-year-olds and up, five furlongs, was won by Galleot; Golden flight second and Vittange third.

FRESNAN TAKES BRIDE IN PARIS

M. M. Nishkian, Well Known Merchant, Returns to Fresno as Benedict.

M. M. Nishkian of this city returned from abroad with his bride a few days ago. The groom is well known among the Armenian colony of this city and is a prosperous dry goods merchant. His marriage took place about six weeks ago in Paris when he wedded Miss Beatrice Colman, a resident of the French capital and a very handsome young woman.

Yesterday the newly wedded pair were the guests of honor at a banquet given at the home of the groom's brother, H. H. Nishkian on Orange avenue. There were several dozen invited guests present and the health and happiness of the bride and groom were made the subjects of a number of clever toasts.

WOMAN GOLFER SCORES A HIT

GARDEN CITY, Ia., Oct. 29.—Miss Dorothy Campbell, international champion, left a deep impression upon metropolitan golfers when she here played in the one day tournament at the Garden City Club, although, being one of the girls at scratch, she did not win the handicap.

Miss E. S. Temple of the Westward

Hi Club of England captured the prize offered by the Women's Metropolitan Association with a card of 101, which, with her five handicap, gave her a net score of 96.

A rehearsal is called for 3 o'clock this afternoon in the First M. E. church of those to take part in the rally program. The teachers are requested to come at 4 o'clock.

ACCIDENTS

are never expected. Every housewife,

workwoman, former store-keeper should always have at hand an assortment of bandages, plasters, liniments and lotions of the "first aid" sort. Let us help you select a little emergency outfit.

DERMER IS GIVEN 180 DAYS IN JAIL

Drunks Are Also Meted Out Severe Punishment; Alleged Robber Held to Answer.

Henry Dermer, the Russian wife beater, who has been in police court on a number of occasions for various petty offenses, was brought before Judge Smith yesterday on charge of disturbing the peace several days ago. The man's past record has been of such nature that Judge Smith gave him 180 days in County jail. Dermer created a disturbance in Chinatown a short time ago and defied the officers to arrest him.

Edward J. Keane, who was arrested Thursday night for being drunk and carrying concealed weapons, was sentenced to spend the next thirty days in jail yesterday by Judge Smith. Frank Evans, who was arrested for drunkenness was given a like term.

P. Cigaletti, the Slavonian, who was arrested a few days ago for robbery, was given his preliminary examination before Judge Graham yesterday afternoon and held to answer, his bond being fixed at \$1,000.

J. La Porte, who was arrested some time ago for hitting a woman in a West Side saloon, with a hammer, was given his preliminary examination before Judge Smith yesterday on a charge of assault with a deadly weapon. The case was taken under advisement.

The burglar was discovered by a young man who has been sleeping in the Lyon's residence at odd intervals for the past two or three weeks. When he reported the matter to the police, although the burglary was several days old, he instructed Chief Shaw to take him to the Capitol to show that he was not the man who sold the silverware, his object being to clear himself of any suspicion.

It is probable that the trick was turned by two men, for the two came in to sell the articles. In the first case, in which the goods were brought were two sugar bowls and about a hundred knives, forks and spoons.

Let L. Gray occupied the residence for a few days before the burglary, having just moved out when it occurred.

DRAWING OF LAND COMES TO AN END

Woman Badly Disappointed
Finds Suddenly She Is
One of the Prize Winners

ABERDEEN, S. D., Oct. 29.—Turning away tearfully from the final day of the drawing of names of winners in the Cheyenne river and Standing Rock reservations, Mrs. Sylvia R. Gillard of Sandusky, Ohio, a widow of 10 years, today glanced wistfully at the printed list of winners upon the wall. Hope gone, she faced the bitter disappointment.

30 Years of Success

The Monroe Drug Co. Offer a
Remedy for Catarrh;
The Medicine Costs
Nothing If It
Fails.

When a medicine cures a successful treatment in a very large majority of cases, and when we offer that medicine on our own personal guarantee that it will cost the user nothing if it does not completely relieve, enough is done to reasonably lead us to claim that kind of power. We believe in the practical test when we take all the risks. These are facts which we want the people to substantiate. We want them to try Rexall Mucu-Tone, a medicine prepared from a prescription of a physician with whom catarrh was a specialty, and who has a record of thirty years of enviable success to his credit.

We receive more good reports about Rexall Mucu-Tone than we do of any other catarrh remedies sold in our store, and if more people only knew what a thoroughly dependable remedy Rexall Mucu-Tone is, it would be the only catarrh remedy we would have any more.

Rexall Mucu-Tone is quickly absorbed and by its therapeutic effect tends to disintegrate and cleanse the entire mucous membranes, thus, to destroy and remove the parasites which injure the membranous tissues, to soothe the irritation and heat sores, and to stop the mucous discharge built up strong, healthy tissue and relieve the blood and system of diseased matter. Its influence is toward stimulating the micro-cells, aiding digestion and improving nutrition until the whole body vibrates with healthy activity. In a comparatively short time it brings about a noticeable gain in weight, strength, good color and feeling of buoyancy.

We urge you to try Rexall Mucu-Tone, beginning a treatment today. At any time you are not satisfied, at any time you are not satisfied, simply come and tell us, and we will quickly return your money without question or quibble. We have Rexall Mucu-Tone in two sizes, 50 cents and \$1.00. Remember you can obtain Rexall Remedies in Fresno only at our store, The Rexall Store. The Monroe Drug Co.

Anty Drudge Talks to an Indignant Woman.

Mrs. Topflat—“Just gaze at that skirt! Looks like a piece of Swiss cheese. Full of holes. My washwoman must use quick lime instead of soap.”

Anty Drudge—“Why don’t you wash at home?”

Mrs. Topflat—“At home, indeed! Why, as you know, I live in an apartment. Boil clothes on a gas range? Most likely land in the hospital.”

Anty Drudge—“Why, dear, use Fels-Naptha and you don’t have to boil the clothes. Lukewarm or cool water is all that’s needed winter or summer. And I’ll guarantee your clothes will never again be freckled with holes.”

No sensible woman wants to do more work than is necessary to accomplish the best results.

And yet—

There are women who take a full day to do the weekly wash when it can be done in half the time and far better.

Is this because they don’t know the Fels-Naptha way?

Or is the reason that they are so governed by habit that they hesitate to try a new method?

The Fels-Naptha way is so easy, so simple. Full directions are on the red and green wrapper.

UNIQUE PARADE HELD AT STOCKTON

Modern Automobile Shown
in Contrast With Old
Vehicles of the '49ers.

STOCKTON, Oct. 29.—The automobile in contrast with the stagecoach was the motto of today's parade in the celebration of the sixtieth anniversary of the Rush of '49. Marshaled by Coroner B. C. Wallace and headed by a brass band, four large automobiles over one hundred motor vehicles of various patterns paraded through the principal streets of the city. An old stagecoach and a high bicycle were in the parade to emphasize the development of modern methods of transportation and a horseback rider in continental costume added to the variety of scenes.

In one automobile rode John H. Smith, a local merchant of ample girth, made up to impersonate President Taft on his trip to Visalia yesterday. In another machine rode some pioneer ladies with a dozen midget motorcycles and a number of bicycles were in line. An automobile milk wagon showed the increasing use that is being made of motor vehicles.

The parade was followed by branchers riding in the business part of the city, riding on the principal streets being roped off to prevent injury to the crowds during that feature and the parade.

An up-to-date fire drill by the Stockton fire department under the direction of Chief McLean and an exhibit of wireless telegraphy completed the forenoon's entertainment.

In the afternoon there was a wild west show and a immense crowd gathered at the head of Stockton enroute to witness the finish of the motor race from Sacramento to this city.

The celebration will close tomorrow. The weather has cleared and the stampede to Roaring Camp is growing.

NAME SUCCESSOR TO
RODOLFO ESPINOSA

Nicaraguan Government Will Attempt
the Suppression of the Rebel-
lion.

NEW YORK, Oct. 29.—Pio Bolanos, Nicaraguan consul in this city, received today a cablegram from President Zelaya stating that Edgardo Barraza, who is now minister from Nicaragua to Panama, would be appointed minister to Washington in succession to Rodolfo Espinosa, resigned.

Mr. Bolanos said advises from his government today reported that the situation in Nicaragua had not changed and that the government was preparing its forces to suppress the rebellion. His advises, he said, indicated also that all the interior towns of the republic are sustaining President Zelaya.

REMOVE MURDERER TO FOIL LYNCHERS

KANSAS CITY, Oct. 29.—To prevent possible lynching by a vigilance committee reported to be forming among the farmers of Wyandotte county, Kansas, in which the murders were committed, Sheriff B. C. Tracy of James McMichael, the confessed murderer of the two sisters and brother-in-law from the Kansas City, Kansas, county jail late last night. Word of the sentence was passed among the farmers and they dispersed. McMahon was quietly taken back to the Wyandotte county jail today and placed under a heavy guard. Adequate precautions will be taken against violence tonight.

WINDS PREVENT AIRSHIP FLIGHTS

COLLEGE PARK, Md., Oct. 29.—Continuing wind, blowing over the government aviation field here today, made impossible any extended practice with the Wright aeroplane. Lieutenant Lahm and Hummel, 88th Inf., attempted to fly in a head-wind, but when the lower end of the field was reached the aviators decided not to attempt to make a turn in the face of the wind, and landed successfully.

FOOTBALL CLAIMS ANOTHER VICTIM

URIBANA, Ill., Oct. 29.—Civille Billie, a 14-year-old boy of Uriiana, died yesterday from a broken neck, received on October 12 while he was playing football with schoolmates. The boy's ailment was first diagnosed as "boy fever." It is considered remarkable that he lived as long as he did.

PRESIDENT JORDAN WILL START EAST

STANFORD UNIVERSITY, Oct. 29.—David Starr Jordan, president of this university, will go East November 11 to attend the meeting of the Carnegie Foundation Institute, of which he has been acting president since the resignation of Dr. Eliot. Later Dr. Jordan will attend a conference in Washington on the international fisheries question. President Taft, Secretary Knox and Mr. Prince, representing Great Britain, will be present.

ARRESTED AS SWINDLER.

OAKLAND, Oct. 29.—William J. Conners, alias William Carson, a member of the Mayhew gang of alleged prize fight fakers and race track swindlers, was arrested today by Captain of Detectives Peterson at the request of the postal authorities. Conners, accompanied by R. B. Herriman, F. W. Brown and E. G. Moore, the members of the gang who were arrested a few weeks ago in San Jose, will be taken before U. S. Commissioner E. A. Heacock next Monday for preliminary examination.

ROBBER'S BROTHER ACCUSED VAGRANT

SAN JOSE, Oct. 29.—James Neving, a brother of Leo Neving, one of the Santa Clara bank robbers, is in the city prison here on a charge of vagrancy.

“I came to this city three weeks ago,” he said to Judge Dougherty this morning, “with \$100 to help my brother. I bought the latter a few meals and gambled a little, and now I am broke.” He pleaded not guilty and will be tried next Friday.

STOCKTON OFFICIAL FOUND NOT GUILTY

STOCKTON, Oct. 29.—County Recorder James H. Krosh, charged with neglecting to turn over official documents to the county treasurer within the time specified by law, was found not guilty today by a jury after deliberating nearly three hours, one juror holding out until the fourth ballot.

WOMAN IS KILLED IN CAR ACCIDENT

EXPECT DECISION IN HASKELL CASE

DENVER, Oct. 29.—One woman was killed and ten persons were injured yesterday when a street avenue car got beyond control on the steep hill above the Saloon and dashed and finally jumped into a telephone pole and turning over on the sidewalk at Broadway and Court Place.

As the car started on the descent of the Seventeenth street hill the brakeman failed to work and the passengers jumped shouting to the passengers to jump. Many did so, but there were fifty persons left in the car when it reached the foot of the hill.

Mrs. Minnie McEvily, the woman who was killed, was walking along the sidewalk when she was caught by the runaway car, which turned over upon her after striking the telephone pole.

SAN JOSE, Oct. 29.—According to the new directory just completed, San Jose, with its immediate suburbs, has a population of 58,000, of whom 40,000 are within the corporate limits.

The Juvenile Store

This store stands as the largest children's store in the San Joaquin Valley. We are outfitting nearly all the boys of Fresno—why not yours? It's a great pleasure for parents to trade at this store. Everything is here for the boys, underwear, shirts, stockings, caps, hats, sweater coats, reefer, suits, overcoats, etc.

We are showing very pretty models and styles in suits and overcoats.

The Best

Men's Shoes

\$2.50 and \$3.00

“Best” in shoes means a good many things; you want them all. It means style, fit and service—good looks, comfort and economy in wear. Our shoes are the value givers. They possess all these superior qualities, and we only charge \$2.50 and \$3 a pair.

STOCKS HUME LAKE WITH SMALL TROUT

Tributary Streams Also Receive Share.

Andy Ferguson Says Hume Lake Will Afford Fine Fishing.

District State Deputy Game Warden Ferguson returned yesterday from Hume, whither he had gone to stock Hume lake and tributary streams with 50,000 small trout. The state commission's fish car passed through on Tuesday and left here twelve cans of small fish, four of Rainbow and eight of Loch Leach trout. These were conveyed to the mountains and liberated in the lake and in Ten-Mile, Long Meadow and Bear creeks.

Ten-Mile creek was at one time well stocked with trout, but it has been almost depleted. It is a stream very much like Stevenson's creek, which feeds Shaver lake, both being short and precipitous streams, so that it is a question whether the trout would have propagated even had the depletion not come about. Ten-Mile creek was stocked by pack animals over twelve years ago, Warden Ferguson prophesies that Hume lake will in a few years afford one of the finest fishing grounds in the mountains in Fresno.

A fish car also brought like consignments for Lemon Cove to be liberated in the streams of the Three Rivers country, for Porterville for the game protective association there and for Visalia to be liberated in that portion of Mill creek between Badger and Dunlap at the request of Mr. Chapin, who has a farm and range in the mountains, and before going there was cartoonist on the Times of Los Angeles.

A letter received under date of Thursday from Chief Deputy Vogelang said that there had been a serious mishap at the game farm in Pleasanton with attempts made to do serious damage. One night all pens were found open and many of the game, some pheasants and Hungarian partridges escaped. This was followed a few days ago by finding a lot of birds dying suddenly one morning. Wheat was found in places where never any had been placed. This was analyzed by a leading chemist, Prof. Green, and he unqualifiedly pronounced the wheat poisoned with strichnine.

The matter is being investigated and a reward of \$250 has been offered in the hope of detecting the poison distributor. Not many of the older pheasants were lost, but many of the younger, because being more delicate succumbed more readily. Luckily more than 600 young pheasants had been distributed before this crime was perpetrated. Besides those retained for breeding stock next spring there will not be more than 200 to ship out. It is figured that the loss at the farm was from 250 to 300 young pheasants between the poisoning and the escape.

LOOK FOR OWNERS OF STOLEN PROPERTY

Prisoners Have Several Articles in Their Possession Which They Claim Were Found.

The police are actively engaged at the present time in the endeavor to ascertain the owners of a certain amount of property which they believe has been stolen and which has been found on three prisoners who are now serving terms in the county jail.

Harry Vantberg, who is serving sixty days for stealing a bicycle, had in his possession at the time of his arrest, a lady's gold watch with a chain and charm and a pair of gold rimmed nose glasses. On the watch charm the initials "I.B.G." are engraved. When arrested Vantberg made the remark that if the police knew who he was they would not be arresting him for stealing a bicycle.

On the person of C. S. Stedt, who is serving ten days for vagrancy, the officers found a set of fine drawing instruments—which Silcox claims—he found. No owner has been found for the instruments yet.

The gun which Edward Keppa was carrying at the time of his arrest Thursday night, a .41 caliber Colt, he also claims he found.

AGED SHEEP MAN CALLED BY DEATH

Deceased Pioneer of This State.

Woman's Improvement Club to Co-operate With Farmers' Institute.

MADERA, Oct. 29.—Alex Beatty, a pioneer sheepman of this valley, died at the county hospital this morning at old age. He had been an inmate of the hospital for the last six months. Mr. Beatty was a native of Scotland, aged 72 years. He came to this country in 1865, settling in Stanislaus county, where he went to work herding sheep for Thomas E. Hughes from 1868 to 1874. He looked after the Hughes flock of sheep and made a success of the business. He was the first to introduce the Scotch methods into the sheep industry and was entirely successful. Later he moved to Merced, where it was estimated that he was worth \$50,000. He came to Madera in 1880, where he has been ever since. Of late he has been herding sheep for J. F. Daulton. The deceased has a brother in Scotland, a nephew in San Francisco and one in the southern part of the state. The funeral will be held here tomorrow.

At a meeting of the Woman's Improvement Club at the home of Mrs. L. H. Dyer yesterday it was decided to co-operate with the farmers' institutes and do all in their power to make the coming institute a success. Four-

YOUR KIDNEYS ACT FINE AND BACKACHE SIMPLY VANISHES

Just a Few Doses Regulate the Kidneys, Ending Bladder Misery.

The most effective and harmless way to cure backache and regulate out-of-order kidneys, or bladder trouble, is to take several doses of Pape's Diuretic.

You will distinctly feel that your kidneys and urinary organs are being cleaned, healed and vitalized, and all the miserable symptoms, such as backache, headache, nervousness, rheumatism and darting pains, inflamed or swollen eyelids, irritability, sleeplessness, or suppressed, painful or frequent urination (especially at night) and other ills, leaving after taking only three doses.

The moment you suspect any kidney or urinary disorder, or rheumatism, begin taking this harmless prep-

aration as directed, with the knowl-

edge that there is no other medicine,

at any price, made anywhere else in

the world, which will effect so thor-

ough and prompt a cure as a few

doses of Pape's Diuretic, which any

physician, pharmacist, banker

or any mercantile agency will tell

you. Pape, Thompson & Pape, of Cin-

cinnati, is a large and responsi-

ble medicine concern, thoroughly worthy

of your confidence.

Don't be miserable or worried

another moment with a lame back or

clogged, inactive kidneys, or bladder

misery. All this goes after you start

taking Pape's Diuretic. In a few

days you feel and know that your

kidneys, liver and urinary system are

healthy, clean and normal, and all

danger passed.

Accept only Pape's Diuretic—fifty-

cent treatment—from any drug store

anywhere in the world.

teen members of the Shakespeare club were enrolled for the first cycle of three months, and many others have been promised for the second cycle.

Mr. Miller will address the club next May, afternoons, at the residence of Mrs. F. E. Osterhout. The subject for the day will be "King Lear."

The year old son of Mr. and Mrs. T. Caneva swallowed the stub of a cigarette yesterday and was made deathly sick. Dr. L. St. J. Hely relieved the little one's suffering.

A son was born to Mr. and Mrs. A. E. Shedd on the 27th inst.

The following named officers of Masonic Lodge No. 279, A. O. C. W., were installed at the last meeting: P. M. W. Frank Melville, M. W. G. J. Quant; F. Martin Dorn, O. H. D. Hanrahan; R. and C. R. C. Jay, G. C. Katow, I. W. W. A. Smith; Rev. A. Wehrmann.

Dr. W. C. Reid returned last night from San Francisco.

He is not worried about his arrest in Fresno, as he says he can prove he came by the mules honestly.

Mrs. H. L. Freshour of San Francisco is visiting C. H. Williams.

Mrs. H. C. Brammer returned last

night from Oakland, where she had

been on a visit.

Mrs. D. McKellip of La Porte, Ind., is visiting Mr. and Mrs. S. J. Palmer.

Guiseppe Giannini tried to break the harness record Thursday night by driving at the top speed along Yosemite avenue. He was urging his brown mare to her best gait by the reins of "Go faster, Moche, faster like Molini," when he was unable to get within hauling distance.

Unfortunately for the Italian his hot blow off and he was forced to turn his cart about to recover his sky place. It was then that the combatable grabbed him and put him in jail with a charge of breaking the ordinance relating to the speeding of horses within the city limits against him.

Guiseppe pleaded guilty in Judge Barcroft's court yesterday morning, explaining to the judge that he dearly loved a fast horse. He was fined \$10, which he paid.

Ed McAlahan pleaded guilty to a

charge of petty larceny yesterday for having stolen two shoes of the value of \$3.75 from Hope's shoe store.

He stated that he was drunk at the time or he would not have taken the shoes, neither of which fit him.

He promised the court that he would never take another drink. The judge wanted to insure his keeping his promise a little while so sentenced him to serve 150 days in jail.

Filmore Duncan, a carpenter employed by Brown & Silley on the First National Bank building, which is undergoing repairs, fell off the floor joist from the second to the first floor Thursday and was considerably bruised about the body, although no bones were broken.

J. O. McDonald, Joseph Darnold and O. A. Cole have brought suit against L. D. Rogers to recover the Bully Boy gold quarterine which they deeded to him on promises which were never fulfilled. D. S. Church is the attorney for plaintiffs.

Postmaster Williams has received notice that bids on mail route contracts will be received by the second assistant postmaster general on or before January 1, 1910.

George Coulter, who has been visiting his sister, Mrs. G. W. Kenney, for some time left for his home in Nevada yesterday.

REWARD OF \$1000 FOR MISSING LINKS

Sheriff Chittenden Willing to Pay for

Information in the Garabedian

Murder.

Sheriff Chittenden came out yesterday in the local Armenian paper with an offer of a reward of \$1,000 for information that will lead to the arrest and conviction of the person or persons that assassinated M. G. Garabedian on the night of the 13th of last May on the back steps of his ranch home on Cedar avenue. The offer will stand good for ninety days.

Soon after the murder and in the hope of clearing up the mystery of the assassination, an offer of a reward of \$200 was made but without result.

There have been no developments in the case to suggest this offer of a much increased reward.

Yet Sheriff Chittenden thinks that the highest of the offer may tempt some one to give him evidence which may furnish the missing link to complete the chain of evidence in his possession.

Mr. Chittenden says that he and the district attorney are morally certain who the assassin was and that they have a large mass of evidence pointing to the person suspected by them. That evidence, if it makes out anything, establishes a case of murder in the first degree with death as the penalty. It lacks, however, some necessary essentials such as would warrant an accusation and demand the full punishment of the law against that suspect before a jury.

In the hope of securing additional

information that will make a complete

case of murder to go before a jury with the present purpose of that \$1000 reward.

BRITISH LOSE CRUISER PLANS

LONDON, Oct. 25.—Discussing a recent rumor in the House of Commons today, Reginald McKenna, first lord of the admiralty, admitted that confidential drawings having to do with the construction of the dreadnaught cruiser Indomitable had disappeared. He added, however, that as the British battleship had been given command for some time the missing plans had lost much of their value.

The loss of the sketches has resulted

in the usual suggestion that they have

found their way into the hands of the German government, but so far as

known this is but a surmise.

BUT BRINGS FIVE MILLION CIGARS.

SAN FRANCISCO, Oct. 28.—The liner Siberia arrived today from the Orient with a number of distinguished passengers. Among these was Prince Von Hessen of the German army, who is a cousin of Emperor William. He has been in China looking after German interests and is now on his way home. Baron Liang Kien, a connection of the Chinese royal family, accompanied by a retinue, arrived on the Siberia for a brief visit to this country.

In her hold the Siberia carried the heavy consignment of cigars shipped across the Pacific—5,000,000 Manilla cigars consigned to a local dealer.

UNITARIAN PULPIT.

The God of the Open.

I believe in the God of the open. He is no inhabitant of the silence and the shadow. He is not found only under the dim church cloisters, or heard only in the awed hush of so-called worship.

The God in whom I believe is the God of the open sky and the open street and the open mind. Everywhere and in everything He may be seen and felt, and known. He is in the sunlight more than in the shadow. In the living presence more than in the dead past. He is in the open field more than in the templed envelope. He does not speak alone from an ancient stool; He walks and talks with every man on the common path of life. Sunday night, in the Parlor Lecture Club hall, in my lecture on "The God Unitarian Worship" I will enlarge and amplify this thought.

J. A. CRUZAN, Field Agent.

ARREST MEXICAN ON FORGERY CHARGE

Prisoner Alleges That He Is Former Secretary of President Porfirio Diaz.

SAN FRANCISCO, Oct. 29.—Luis Gonzales de Andrade, who claims to be the former secretary of President Diaz of Mexico, is held here by the police on information from Los Angeles that he is wanted there on the charge of having passed a fictitious draft, Gonzales claiming that his arrest is due to a mistake of the Los Angeles bank officials, who did not recognize a Mexican custom of substituting his initial for his first name in signing a check.

The local detective department announces that Gonzales will be held here until officers arrive with a warrant from Los Angeles.

LOS ANGELES, Oct. 29.—De Andrade's draft was cashed by the Landmark hotel, which deposited it with a local bank, from which it was forwarded to New York for collection. The draft was endorsed "Luis Gonzales" and was returned marked "No funds."

The Los Angeles bank officials say that if the New York account was in the name of "Luis Gonzales," that the paper would have been returned by the bank with the information that there was error in the signature. The draft was on the Joseph Brewing Company. The hotel has failed to locate any concern by that name.

LABOR LEADERS TO MAKE APPEAL

Should Decision Be Against Them, Case Will Be Taken to Highest of Courts.

WASHINGTON, Oct. 29.—Samuel Gompers, John Mitchell and Frank Morrison of the American Federation of Labor, who were sentenced by Judge Wright to jail terms of twelve, nine and six months, respectively, for contempt of court in the now famous injunction proceedings of the Buck Stove and Range Company, will file an appeal to the United States Supreme Court in the event that the District Court of Appeals sustains the action of the court which imposed the sentence upon them.

An editorial by President Gompers in the December issue of the American Federationist is as follows:

"Whatever the decision of the Court of Appeals may be, it must ultimately lead to victory for labor, and a victory for labor will mean a victory for all the people. Should the court sustain the appeal and annul the sentences it will maintain beyond question the right of free speech and a free press."

"If it should sustain the decision of Judge Wright it will simply mean that an appeal must be taken in the highest court in the land to obtain a final determining word as to the judicial conception of the existing constitutional guarantees. Even should the highest judicial tribunal of the country fail to maintain the right of free speech and free press there is still a higher court—the court of public opinion."

PEDAGOGUES CHOOSE THEIR OFFICERS

RED BLUFF, Cal., Oct. 28.—The next meeting of the Teacher's Association of Northern California will be held at Redding, the 600 delegates assembled voting for that place today when Chico and Oroville withdrew from the race, the former with the understanding that the meeting of 1911 will be held there. Officers for the coming year were elected as follows:

President, Prof. G. W. Moore, Colusa High School; vice president, M. F. Reynolds, Redding; recording secretary, Miss Alys Hopkins, Marysville; Miss Delta Fish and J. D. Sweeney were re-elected as corresponding secretary and treasurer, respectively.

Among the speakers today were Miss Olive Bedford, Miss Jennie Purrington, Dr. Fairbanks and State Librarian James L. Gillis, who urged co-operation in the county library plans of the state.

STANFORD CALLS RETURN GAME OFF

LOS ANGELES, Oct. 28.—As a result of a letter written by Manager Burkhardt of the Stanford football team to Manager Grunich of the Castaways, the team which opposed Stanford here last Saturday, the return game between the two elevens to have been played in the north was called off.

Manager Grunich said that Burkhardt's letter charged the local players with trifling and rough play in the game.

He emphasized the disappointment of the northern players in finding here a team which was no match for them, and resulting in the extremely one-sided score of 41 to 6.

The Castaways assert their poor showing was due to their best men being out of the game from injuries and that they had hopes of doing better in the return game.

Manager Grunich, however, asserted that the loss of the players was due to the

fact that the Stanford team had been

practicing for the game.

RAISING.... GROWERS

The National Dessert

Mince Pie comes nearer being the typical national dessert than any product of the American kitchen.

To have good mince pie you must have perfect mince meat.

TEA GARDEN

Mince Meat

ready for use, and the most delicious combination ever made for a pie, is at your grocers waiting for you. It is so much better and cheaper than any prepared in the home kitchen, that it is a waste of time and money to make mince meat at home.

Prepared in our celebrated kitchens, from tender, juicy cuts of beef and mutton, inspected and passed by Uncle Sam, with a combination of California and Oregon fruit and home ground spices. Ask your grocer for Tea Garden Mince Meat. Cost no more than ordinary varieties, but oh! how different.

Mark Smith and Marian Neibert, which comes to the Barton tomorrow night.

Henry B. Harris will present at the Barton tomorrow night "The Traveling Salesman," the latest comedy by James Herries, the sophisticated author of "The Chorus Lady" with a strong company of metropolitan players who helped the attraction achieve such distinction during the long runs in New York and Boston.

The local of the play is Grand Crossing, a Middle West village. The story opens on Christmas day, and in the first act is shown the interior of the railway station, where Bob Blake, the traveling salesman, and Bertie Holt, the pretty ticket agent, are speedily attracted to each other.

Bertie owns a plot of seemingly worthless land that suddenly acquires value because it is necessary to a scheme of improvement planned by the railroad company. Martin Drury, Blake's employer, becomes cognizant of the corporation's plans through a "leak" in headquarters, and attempts to distract the girl from her property by a pretension of the laws governing the sale of land by the township for unpaid taxes. It is Blake's aim to frustrate the scheme and the predicament in

THE SWIFT SPECIFIC CO., ATLANTA, GA.

S.S.S. HEALS OLD SORES

Every old sore is an external symptom of a depraved or polluted condition of the blood. These festering places on the flesh are kept open and in a state of irritation because the circulation is continually discharging into them the impurities and morbid matter with which it is filled. This polluted condition of the blood may be the remains of some constitutional trouble; the result of a long spell of sickness, which has left the blood stream weak and germ-infected, or because the natural refuse of the body, which should pass off through the proper avenues, has not all been eliminated and has been absorbed into the circulation. External treatment may cause the place to scab over temporarily, but the blood is not made any purer by such treatment, and soon the sore will return or break out at another place and beas bad or worse than before. S.S.S. heals old sores by removing every particle of impurity from the circulation. It goes down to the very bottom of the trouble and so completely changes the circulation that there is no longer any impurity to drain through the sore, but the place is once more nourished with rich, healthful blood. S.S.S. heals the sore from the bottom, the skin regains its natural color, and when S.S.S. has thoroughly cleaned and purified the blood the place is permanently healed. Book on Sores and Ulcers and any medical advice free to all who healed. Book on Sores and Ulcers and any medical advice free to all who healed. Book on Sores and Ulcers and any medical advice free to all who healed.

COMEDY OF MODERN DAY TOMORROW EVE

"Traveling Salesman" Is Highly Recommended.

Pretty Story Holds Audience's Attention; Souza's Band Next.

which he finds himself through his impetuosity and misguided efforts, supplies the necessary dramatic thread of the comedy, which aims clearly at a forcible exposition of the characteristics of the present day dramatist.

The second act, which takes place in Blake's room in the hotel, is said to be as novel in its depiction of "life on the road" as was the second act of "The Chorus Lady" in illustrating life behind the scenes.

The story is related by widely contracting types of veterans and drummers. Without question, "The Traveling Salesman" cannot make laughs than any play seen in years, and to the jaded theatergoer, tired of dry descriptive talk on intricate problems of sex, the amount of M. T. Neibert's comedy success in this city seems to await with interest.

SOUSA'S BAND.

America has three conductors who have fully succeeded in retaining the heart of the many-loving public. Arthur, who first established high-grade concerts in this country, and made the quadruple the personal status of musical expression of myself, Patrick Sarsfield Gilmore, to the young Americans and bohemians, who first developed the popularity of the many great bands, and John Philip Sousa, with stirring marches and tuneful two-step, who stands today the most conspicuous figure among American conductors. As composer, we could not do any program better. Sousa's unique style and the great enthusiasm shown throughout the Sousa concertos, Sousa's and others of march are well known, but the public wants more serious music.

Marches, Sousa's and Gilmore's,

"The Third Degree," by Charles Klein, author of "The Lion and the Mouse," which Henry B. Harris is staging to the Bartons next Wednesday evening for an enjoyment of one night, is an elegant and brilliant work of noble character, that is destined to enjoy audiences for many years to come. It typifies still the best in modern "operetta" drama and private theatricals.

Its author is a psychologist of keen perception, as well as a dramatist of genuine worth and ability.

Its bold and dominant theme is indirectly derived from the dark days of the frightful Spanish Inquisition, which is brought down to this generation by the deplorable police third degree system. Interspersed in the story are a fascinating romance between Yale student, the son of a wealthy old Knickerbocker family, and a daughter of the people. The affection of this young woman for her seafaring husband is at once pathetically enthralling.

She appeals to the very well-being of the soul for sympathy and it is not withheld from her. She capitulates at her first introduction and goes sadly but persistently on her mission of love, privation, and charity with her motherly, full-strength measure of sympathy.

It is only a play and is founded along on the current of eccentricity that it is only a play and is not a novel through a terrible valley.

Miss Petronella Elizabet, who plays the character of Agnes Jeffreys, the young wife, is so delightfully naive and unaffected in her impersonation of the broken-hearted girl that never

fails to evoke an overwhelming feeling of love and trust in the hearts of her audience. She even loses her own self in the character so intensely interested is she in others in the cast are:

Paul Everett, E. A. Kherle, Margaret Paul, Alfred Moore, T. L. Coleman, Mrs. J. W. Brown and children, and Mrs. Eva Farrell are here from Louisville and will spend several weeks.

Laverne Coyle is home from San Francisco, where he spent Portait week.

The Future Board of Trade has appointed P. D. Fowler, William Small, John Tooley, P. J. S. Montgomery and E. Giannini to attend the meeting of the State Promotion Committee to be held in Visalia next month.

Mr. and Mrs. Joe English will leave Monday for Everett, Wash., where they may reside.

Ward has just received a telegram from Miss Pegeen Bay, a former Visalia young woman, to George A. Forbes at home the wedding having occurred on the 19th inst. Mrs. Forbes is a sister of Mrs. Frank Williams of this city and is well known locally.

Mr. and Mrs. Stoney McNay are home from San Francisco, where they attended the Portait celebration.

Mrs. J. W. Brown and children and Mrs. Eva Farrell are here from Louisville and will spend several weeks.

LIST YOUR PROPERTY

WITH

J. ED MITCHELL & CO.

General Dealer in City and County Property.

Main 2211, 2022 Mariposa St.

FOR SALE—44 1/2 acres choice land in Dubna district. Thirty-five per cent full housing. Sultana vines, fifteen acres table grapes, remainder peaches and pasture. House, barn and other improvements. One half mile from station, \$400 per acre. Terina. Address C. H. Castle, Jr., R. F. D. No. 2, Dubna, Cal.

FOR SALE—A section of fine rich land in Tulear, Tulare county. There is not a knoll or a凹 in the entire 60 acres. Artesian wells drilled all around this land show a depth of 50 feet, and there is not even a trace of alkali. It is called a perfect section, being fine sugar-beet land, and also the best for alfalfa, flax, cereals and nearly every kind of orchard or vineyard except citrus. Price \$40 an acre; terms 1/2 cash, balance 1 and 2 years.

THE READER will wonder why such land as this, if as good as advertised (and it is), should be offered at such a price. These are the reasons: It is in a new district, not much developed yet; it is 7 miles from the railroad; the cash payment required is heavy. The land is really worth \$1000 an acre now, and will soon be worth \$1500. Apply to OWNER, Box 1, Republican.

FOR SALE OR TRADE—20 acres 2 miles from town, all fenced, house, church water, Bermuda and salt grass.

KITTRELL & NEES, 1144 J St.

Curious Farms and Farmers In America

THIS field for making money in this country is not confined to stock speculation, merchandise and invention. The raising of goats, the culture of squabs, farming with ostriches and even the propagation of alligators for commercial purposes are among the lucrative industries of the present age.

Ever since the sultan of Turkey sent nine goats to this country, in 1848, as an appreciation of the favor granted to him by President Polk, who had sent the sultan an envoy to give the sultan pointers on the culture of cotton, the goat industry of the United States has thrived. Of course there were goats here before the sultan shipped his batch, but they were the meanly species that subsisted on the refuse of the tinplate industry and chewed the weekly wash from exposed pipes where the goat happened to have a habitat. The moment that goats became an imported article, however, the industry got a foothold in this country. In 1861, somebody undertook a goat census in the United States. It is not recalled whether the count was official or not, but after the returns were in it was announced that there were 500,000 in all parts of the land. Texas led in the industry, the number reported from that state being 85,000. California came next with 65,000; New Mexico had 40,000; Oregon, 20,000; Nevada, 15,000; Missouri, Idaho, Wyoming and Arizona, 10,000 each. All other states had some, and it is not recorded that there has ever been a goat epidemic in any state of the Union.

Aside from the fact that goats have been utilized by caravaneers and funny men, they are useful, and the country would feel any extirpation of the animal very seriously. The flesh, fleece and hide are valuable. When the buffalo quit supplying the country with robes the goat took its place. The hair of the goat when a month old can be sold by a smart dealer for astrakhan if the hair is properly dyed. At the right stage goat hair successfully counterfeits the polar bear or the black bear. Most of the carriage robes as well as many used by motorists are from the goat. It

would be denied by some dealers, but it is asserted that many muffs sold as monkey warmers are nothing more than goat hair. Taco trimmings worth \$5 a skin are made from the Angora goat. The use of goat hair is endless. It may not be generally known that the government has gone into the goat business, but such is the fact. The national forests were threatened with destruction by fire that got under way in the bushy chaparral that grew about the forests. The growth was too much for humans to kill out, so the government purchased 3,000 goats and turned them on the growth. The goats are clearing the brush faster than a cold weather corn, wheat, hemp, sunflower and rape and milled seed are the best food. Green growing things are not best for pigeons. It is not necessary to feed the squabs. The parent birds understand that. Hand-raised squabs would not be a success.

Squab Culture Pays.

The squab industry is another proposition. It pays, but it requires time and patience. Pigeon raising, however, according to experts, is more profitable and less vexatious than poultry raising, provided the man who undertakes it understands the habits and needs of pigeons. No incubators are necessary in the business. Pigeons are monogamous. When a cock and hen are once mated they remain firmly attached to one another. Both assume equal shares in the home. But incompatibility in a pigeon house is as fatal as it is in high society. As each pair of pigeons rear six or seven pairs of

squabs in a year, and as the wholesale price of squabs is anywhere from \$3 to

\$5 a dozen, it requires no mathematical genius to figure out the profit where there are a few thousand pigeons that are compatible and taken care of properly. The cost of feeding a pair of pigeons is about \$1 a year. It depends on the season. More feed is required in winter than in summer. In

cold weather corn, wheat, hemp, sunflower and rape and milled seed are paying "plant" for growing ostrich feathers.

The bird must have room. Five or six acres for each ostrich is considered none too large. The cost of raising a pair of ostriches is about \$500, and if it is an exceptionally fine bird, with downy and luxuriant plumage, it is worth about \$1,000.

The market for ostrich feathers fluctuates, but there is always some demand. A single ostrich in Cape Colony, Africa, raised a feather that sold for \$150. The lowest price paid for feathers from the same bird was \$75.

One of the show places in Arizona is an ostrich farm that is laid out like a town. The streets and side streets are well arranged, named and numbered. Yards are fenced in and sown in alfalfa, which is the staple diet of the birds. The plumes of the average ostrich mature every eight months, and the feathers from each average from \$30 to \$50 at a plucking, depending upon the quality and size of the plumes.

Notwithstanding the pugnacious nature of an ostrich, it can be trained to race, and in some parts of California ostrich racing is one of the sports. Ostriches are also quite sociable where they take a notion. At times they will herd with antelope and other animals, and now and then, but not often, they have been known to show some affection for the person who has them in charge. The ostrich is swift on foot when it is scared. Then it will go

Kings county) by Republicans and independent Democrats. He declined the Democratic nomination for governor in 1894, and for judge of the court of appeals in 1897, and for mayor of Brooklyn in 1896. He again declined the nomination on the Democratic ticket for governor in 1898. When he recently accepted the nomination for mayor of Greater New York he was a Justice of the appellate division of the supreme court. Judge Gaynor is a native of New York state and is fifty-eight years old.

William Randolph Hearst was a candidate for mayor of Greater New York on the Municipal Ownership ticket in 1895. He polled a heavy vote and contested the election of Mayor McClellan. This contest was long and stubborn. In 1896 he was a candidate for governor of New York on the Independence League ticket. Four years previous he was mentioned as a presidential possibility. Mr. Hearst owns two newspapers in New York city, one in Boston, one in Chicago and one in Los Angeles, Cal. He was born in San Francisco and is forty-six years old.

The Republican nominee, Otto T. Bannard, is president of the New York Trust company, director in a number of other financial concerns, president of the Provident Loan society of New York city and treasurer of the New York Republican county committee. He is fifty-five years old. He has never been a candidate for any public office until he became an aspirant for mayor.

The candidate in Cleveland, Tom Loftin Johnson, is also a national figure. He is now holding his fourth term as mayor of his city. He first came into political prominence as an advocate of the single tax and public ownership of public utilities. He has attracted attention and comment by his advocacy of the three cent street car fare idea. In 1903 he was the Democratic candidate for governor of Ohio and was defeated. He is rich and is a man of strong personality. His opponent this year is Herman V. Behr, a former Republican officeholder.

The mayor of Toledo, Brand Whitlock, who is again candidate for re-election, is an example of the scholar and author in politics. He was formerly a reporter on a Chicago newspaper, where he did some work along the lines laid down by George Ade when he was in the business. Both were on the same staff. Whitlock removed to Toledo, where he became interested in social reforms that landed him in the mayor's chair. He is a young man and is the author of several books.

While a candidate for some particular candidate for mayor, occasioned by a popular principle, has occurred now and then, no such mayor has yet reached the presidential chair. True, Mayor Cleveland of Buffalo became president, but not until he had been governor. His administration in Buffalo, linked with his administration as governor, had much to do with opening the road to him to the White House.

There are no congressional elections this year. They will occur in 1910, at which time many states will also vote for governor.

BOMER RIVERS.

Twenty-five miles an hour. When walking leisurely it steps from twenty to twenty-two inches. The feeding of an ostrich or a flock of ostriches is nominal. The expense is in preparing a place for them and looking after their health.

If there ever was a time when alligators were worth their length in money it is now. The reason for this is that the reptile is becoming extinct.

Get Alligators Now.

Alligator raids have been so strenuous for the last few years that the government has been asked to save the species, as it was asked to save the buffalo.

A healthy, full grown live alligator when at its best is worth \$100. The skins are worth from \$1 to \$2 apiece, according to the size, and the skin of a baby alligator is worth a quarter of a dollar.

If the reptile was very long in life and the skin is tender it sells for \$5 or \$10 a foot. The teeth are worth from \$2 to \$4 a pound. Before alligators began to get scarce there were about 280,000 skins sold annually in the United States, and at one time there were a number of alligator taneries in various cities of the country.

The skins are utilized for shoes, stockings, pocketbooks, cardcases and other fancies. An alligator farmer in Florida has an incubating farm for raising and selling baby alligators to many who prefer them to chameleons for watch charms.

Any one who has the time and fancy can make money by training these reptiles, if taken before they are too old.

An Arkansas genius trained a herd to shoot the chutes at Hot Springs, and visitors to that resort paid money to see their tricks when they were stung about other things. A negro on the Brazos river, Tex., rigged up an old

ferryboat that was propelled by these creatures. They were so arranged

that they turned the wheels. Alligator eggs when fresh are regarded by some as a delicacy.

FORBES ELY.

over and floats on its back, and at the same time the spines of the abdomen are erected. By this transformation the fish is protected against the attacks of its enemies. If one of these seized it the aggressor is wounded by the spines and therefore leaves the unprepossessing creature alone. If the inflated fish is grasped by the human hand it endeavors to draw in still more air, as if it were well aware of the importance of this action to its safety. When the danger is past the air escapes with a slight hissing noise and the fish gradually resumes its normal form.

Learned Laborers.

France's cobbler-priest and Germany's tailor-dramatist must hide their diminished heads before two accomplished members of the British proletariat. Streatham possesses a chin-sweeper who is an erudite authority on Egyptology and author of a work on the population question. A certain Yorkshire town can boast of a learned bargee who has long been a deep student of Greek mythology. When his boat is moored to the wharf awaiting a cargo he spends the leisure time in the local reference library reading up his subject and making copious notes. His constant companion as he drifts steers his gallant ship along the canals in a well-thumbed translation of Herodotus.

Space the West Indian Bird.

West Indian birds form a very prominent element still in Cuban, Haitian and Jamaican landscapes, though, unless strict measures be taken by the respective governments, the trade in feathers and the rush of ignorant, gullible, looting tourists will soon eradicate this beautiful element in Antillean life.

Paperweight a Mummified Hand.

The most curious paperweight in the world is said to belong to the Prince of Wales. It is—so report goes—the mummified hand of one of the daughters of Pharaoh.

Barley Growing Countries.

Russia is the largest producer of barley, Germany is second and the United States close third.

Elections In November

Outside of the States That Will Ballot For Governor Interest Centers In Majority Contests-Possibilities of the Result

EXCEPT in a few cities the elections to be held in the United States in November will stir up the country. It is what the politicians term an off year.

Only three states ballot for governor—Massachusetts, Rhode Island and Virginia. The first two are usually Republican, although occasionally they have gone Democratic.

The present governor of Massachusetts, Ebenezer S. Draper, is a candidate for re-election. His opponent is James H. Vahey, Democrat. He was the candidate of his party last year.

The outlook for a lively election in Rhode Island is brighter than in any other state. The present incumbent, Aram J. Potlak, Republican, has two opponents. On the Democratic ticket is Orinsey Arnold. In the lead. The Democratic issue is against Aldrich rule.

The principal cities that are in the throes of competition are New York, Cleveland, Indianapolis, Detroit, Louisville and Toledo. Each votes for a

mayor and other individual candidates. New York city, in connection with the greater city, votes for district attorney to choose William T. Jerome, a reformer in politics. He is an independent candidate and has been endorsed by the Democrats. By reason of his activity and methods he has been called the William T. Jerome of Philadelphia.

The principal cities that are in the throes of competition are New York, Cleveland, Indianapolis, Detroit, Louisville and Toledo. Each votes for a

Peril of Charles W. Morse

Dramatic Situations In the Career of the Millionaire Banker, Promoter and Shipbuilder, Now Under a Fifteen Year Sentence In a Federal Prison

Morse's bail had expired after an extension of two days, that he had surrendered to the United States marshal, that the court had announced that the conviction and sentence of a year ago would have to stand and that Morse was again an occupant of his former cell. This information was supplemented by the announcement that nothing but favorable action by the United States supreme court on an application for a writ of certiorari could save Morse from the federal prison in Atlanta.

Morse was convicted of two distinct things—first, falsifying the accounts of the National Bank of North America, to the comptroller of the currency, and

second, misappropriating the funds of the face of the panic of that year. Morse

was presented by Henry A. Wise, United States attorney. Morse was represented by Martin W. Littleton. The government's case unfolded to the jury Morse's stock operations in the securities of his steamship companies, American Ice securities and various other transactions. The dummy loans were all uncovered, and the course of the stock market quotations on American Ice, which Morse's pool was booming, was traced to manipulations in the National Bank of North America. The former president of the bank, Curtis, admitted that he had been a tool and testified that Morse had borrowed and misappropriated the funds of the bank without any substantial collateral, and that in the

face of the panic of that year, Morse

was convicted of two distinct things—first, falsifying the accounts of the National Bank of North America, to the comptroller of the currency, and

second, misappropriating the funds of the

CHARLES W. MORSE, CONVICTED PROMOTER.

bank. The books of the bank were turned over to the national bank examiner, who was assisted in the investigation by A. H. Curtis, former president of the bank. The trial began by an order from Judge Hough to the jury to look up during the pendency of the trial, the effect that the juncture must be kept up during the pendency of the trial, the jury men spent their days and nights in the custody of the United States marshal. The case on the part of the government

was found guilty and sentenced. Curtis

was born in Bath, Me., in 1856. He was graduated from Bowdoin college before he was twenty.

He made a fortune in his native town before he went to New York city. He brought into the steamship lines running between New York and Boston, along the New England coast, and then became a banker.

RAISIN PRICE ADVANCES BEYOND 2-CENT FIGURE

Bonus Offered Above That Mark--Some Growers Hold For 3--Giffen Claims To Hold 8000 Tons

That the 2-cent mark for raisins this year has been conceded, and that the price will advance for the goods still in the hands of the growers admits of little doubt. Under a pretext raisins are now bringing better than 2 cents. That is, the buyer pays 2 cents straight, plus the hauling and shipping charges. L. F. Giffen yesterday admitted that he was paying the freight and that the raisins delivered cost 2 1-8. Other packers say that freight and hauling added have brought recent purchases up to 2 1-4.

That the statistical situation recently published and the heavy buying have given a firm tone to the market is everywhere manifest. It was announced yesterday that the Kearney estate crop is being held for 3 cents. Captain W. A. Nevills yesterday turned down an

offer to buy his crop for 2 cents and the Empire raisins are also not to be had for that figure.

L. F. Giffen announced yesterday that his firm had bought as much as 8,000 tons of raisins in the last month, the largest block being purchased offer to buy his crop for 2 cents.

Mr. Giffen admitted that the earlier reports given out by him had been minimized, as "he was 'stealing a march' on the Consolidated. Thursday's buying in the Kingsburg and Selma districts was particularly heavy.

The Kingsburg district, he says, is practically cleaned out, and a great quantity was secured around Selma.

More will be purchased here, as additional storage facilities have been se-

cured. Giffen figures that the purchase of 2,000 tons given his firm a corner on the market as only 7,000 tons of muscats remain. He takes 50,000 tons as the basis and eliminates 15,000 of Thompsons, Sultanas, and Malagas, etc. He calculates that 20,000 tons of Muscats of this year's crop have been sold by the commercial packers and the independent.

Giffen & Co. stand ready to buy all the remainder of the crop at 2 cents.

The firm will issue a circular to the trade in a day or two setting forth as to what course the coup made on raising and giving as assurance of an absolutely stable market on a 2-cent basis, with probability of a rise. The market is in the shape at present, most of the purchases made being for a consumptive demand. There has been little speculative buying. Recent inquiries show a stronger tone to the Eastern market.

The Consolidated packers, who were in Fresno the first of the week, personally sizing up the situation, held a meeting in San Francisco yesterday, supposedly to determine their course of policy, but nothing was given out.

A Sorensen, president of the Farm-

GIVES PLEASANT BIRTHDAY PARTY

The home of Mr. and Mrs. A. J. Anderson of Visalia was the scene of a delightful party Thursday evening, the occasion being the fifty-fifth birthday anniversary of Mrs. Anderson. Cards and dancing filled out the hours and at the close of the evening a delightful lunch was served. Those present were: Mr. and Mrs. A. J. Anderson, Mr. and Mrs. Fred Ostergaard, Mr. and Mrs. Fred Peterson, Mr. and Mrs. Fred Anderson, Mr. and Mrs. N. P. Jensen, Mr. and Mrs. H. P. Frank, Mr. and Mrs. Henry Parson, Mr. and Mrs. Peter Christensen, Mr. and Mrs. Mars Ipsen, Mr. and Mrs. Jens Madsen of Modesto, Mrs. Jenny Hanson of Madison, Walter Schmidt of Oakland; Misses Anna, Carrie and Edna Christensen, Laura and Margaret Peterson, June and Mary Olson, Gertrude Frank, Anna Ostergaard, Elmer and Andrea Anderson, and Messrs. William Schmidt, John Elmer and William Peterson, Hans Andrew and Will Ostergaard, Christian and Magnus Jensen, Henry Christensen, Carl Ipsen, Charles Hanson of Modesto, Hans Hanson and George Anderson.

SENATE AGAINST WOMAN SUFFRAGE

In a spirited debate before the High School Senate last night, it was decided that women should not have the right to vote. The Senate was called to order by Vice President Drenth and just preceding the debate, Blelach Stewart and Edward Fase were reelected to membership.

Tufts of Idaho and Stewart of Washington upheld the affirmative side of the question and argued in favor of women's suffrage, while Hopkins of Wyoming, Henlon of Tennessee, Blane of New York and Kelso of Illinois denounced suffrage.

FRUIT AGENCY WINS HONORS AT SEATTLE

The California Dried Fruit Agency received official notification yesterday that it had been awarded the grand prize at the Seattle exposition for the best dried fruit display. This was in competition with all the firms of the coast and is an exceptionally high honor. The agency was awarded a gold medal also for its raisin exhibit.

MRS. GREELEY DEAD

Mrs. A. H. Greeley, wife of Albert H. Greeley, a grain and live stock merchant on Tufts street, passed away at her home 380 Santa Clara avenue, last night at 9 o'clock. The remains are at Neal Bros., but no arrangements have been made for the funeral.

Judge George E. Church, M. K. Harris and Frank B. Short have been named as delegates to a meeting to form a State Bar association. The meeting will be held on November 8th. The association has for a primary object proposed reforms in the law.

LOSES HER MIND WHILE ON TRAIN

Young Woman Arrives in Fresno in Sad Plight.

Believed to Have Been Doped While En Route to California.

A woman about 21 years of age, having the appearance of being under the influence of drugs or some narcotic, was taken from Southern Pacific passenger No. 38 by Conductor Frank Ware as it pulled into Fresno yesterday morning at 5:35. The young woman was bordering on a state of absolute collapse, was unable to tell her name or anything about her family and was as helpless as a baby.

Conductor Ware secured the assistance of Special Agent McDonald and Captain Carroll of the Salvation Army who was called. He and his wife took the unfortunate woman to their home in the hope that she would shortly become better.

Ware first noticed the woman as she was pulled out of Oakland. She had a ticket from Ogden, Utah, to Bakersfield, but seemed to know nothing of herself or where she was going.

An old man who had come from Ogden on the same train as she was taking care of her, but as the train neared Fresno it was seen that something would have to be done very shortly.

According to the old man who was with her, the young woman was all right when she left Ogden and showed no signs of narcotics until she reached Sparks, Nevada. From there she rapidly grew worse, combining her seemingly demented condition with an apparently great internal pain.

When Conductor Ware asked the young woman her name she said it was Eddie, but farther than that she could not tell, as she wandered off on other subjects. On the case of a beautiful gold watch, laid in diamonds, was engraved the word "Eddie" and from a scrap of paper which the conductor found in her purse, he came to the conclusion that her name was Eddie Wrighthouse. She had \$5.35 in her purse but stated that when she started from Ogden she had \$10.

When the conductor sought to glean some information regarding her family, the girl said that she had an uncle who was a chief of police, but she then wandered again and was unable to tell in what city he was.

Ware came to the conclusion that the girl had been doped by some friend who sought to put her in a house of prostitution and when the man found he had doped her too much he left her. His reason for this belief lay in the fact that a card bearing a man's name, giving his residence, in the girl's purse, the address being Bakersfield. Captain Carroll of the Salvation Army stated last night that investigation yesterday showed that Mamie Brown was a woman of the half world who is now living in Bakersfield. Her true name is not Brown,

Ware's belief was further strengthened when he found a card bearing the name Mamie Brown in the girl's purse, the address being Bakersfield. Ware's belief was further strengthened when he found a card bearing the name Mamie Brown in the girl's purse, the address being Bakersfield. Captain Carroll of the Salvation Army stated last night that investigation yesterday showed that Mamie Brown was a woman of the half world who is now living in Bakersfield. Her true name is not Brown,
